

OPTIMUS AI GLOBAL

Fintech Application (Full Structure Support) — Quote

www.optimusaiglobal.com/ground-agents

Digital banking, savings, or payment platforms — built with the full regulatory structure a real fintech product requires.

What's Included

- A complete fintech application: accounts, transactions, and the operational structure a real financial product needs.
- Built to integrate with real payment rails and regulatory reporting requirements.

Compliance Requirement — Please Read

- A fintech application cannot legally be built without proper regulatory registration from the Corporate Affairs Commission (CAC), including a minimum share capital of NGN 100,000,000. We do not build fintech products for clients without these documents in place — no exceptions.

Investment

NGN 8,000,000

Price is minus government/regulatory fees, which are separate and paid directly by the client.

Full scope, timeline, and compliance checklist agreed before any work begins.
