

OPTIMUS AI GLOBAL

Software — Windows & Mac — Quote

www.optimusaiglobal.com/ground-agents

Full desktop software, built for how your business actually runs — not squeezed into a generic template.

What's Included

- A complete desktop application for Windows and/or Mac, built to your business's specific requirements.
- Handles whatever your business needs — inventory, records, operations — reliably and securely.

How It Works

- Frontend: a native desktop interface, designed for daily real-world use, not a web page squeezed into a window.
- Backend: a real, secure data layer — local, cloud, or both, depending on your requirements.

Investment

NGN 1,500,000

Final price depends on scope and complexity — agreed before work starts.

On-site integration available on request, scoped and quoted separately.

Optimus AI Global Ecosystems Limited — we build the future of African business, one business at a time. Think Tech. Think Optimus AI.
