

OPTIMUS AI GLOBAL

Static Webapp — Quote

www.optimusaiglobal.com/ground-agents

A professional, fixed-content website — the fastest way to give a business a real, credible online presence with no ongoing data to manage.

What's Included

- A fully custom-designed website built around your business, not a generic template.
- Every page you need: home, about, services, gallery, contact — structured around what your business actually offers.
- A contact form or WhatsApp click-to-chat button so customers can reach you directly.

How It Works

- Frontend: a fast, modern, fully responsive site — looks right on phone, tablet, and desktop.
- Backend: none required — content is fixed at build time, which is exactly what keeps this tier affordable and fast to deliver.
- Hosting: we set it up and hand over a live, working site.

Investment

NGN 200,000

Delivered remotely — no on-site visit required. Hosting/domain costs billed separately, at cost.

Optimus AI Global Ecosystems Limited — we build the future of African business, one business at a time. Think Tech. Think Optimus AI.
